High Security Shredder

40634 — NSA/CSS Specification 02-01

In order to protect our National Security, military and government agencies require higher levels of security from their paper shredders. The Dahle 40634 is a Security Level P7 machine capable of reducing a single sheet of paper into over 15,500 tiny particles. This machine is designed for military, federal, state or local governments as well as Department of Defense contractors engaged in projects where National Security is an issue.

Known for its power and waste capacity, this Dahle High Security Shredder provides a practical solution for accommodating the shredding needs of even the busiest offices. Its attractive design and large waste bin make this a nice addition to any large office, copy room or communications center.

The Dahle 40634 uses the latest technology to offer full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door opens and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to change the bag. This shredder comes complete with a built in EvenFlow Lubricator automatic oiling system. This system provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance.

Those interested in conserving energy as well as reducing electrical costs will enjoy the revolutionary SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity.

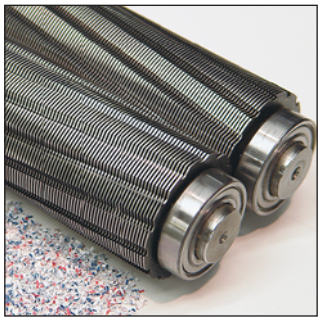
As the U.S. continues to face security threats on a global level, Dahle will continue to offer solutions without compromise to operation or dependability.

Features

- **Feed Opening: 16"**
- **Sheet Capacity: Up to 16 Sheets***
- **Shred Size: 1 mm x 4.7 mm**
- **Security Level: P7 (old level 6)**
- **Automatic EvenFlow Lubricator**
- **SmartPower Management**
- **Made in Germany**

Built in EvenFlow Lubrication System evenly lubricates the cutting cylinders reducing the risk of a paper jam.

The easy-to-use command dial controls all of the shredder's functions such as power up, reverse, and continuous run.



Dahle High Security cutting cylinders reduce a sheet of paper to over 15,500 pieces.

Specifications

Model	Feed Width	Capacity #20 / #16	Security Level	Shred Size	Waste Volume	Speed	Decibel Level	Features/Capabilities							Dimensions	Weight
								Staples/Clips	CDs / DVDs	SmartPower	CleanTEC®	Safe Tech	ESP	Auto Oiler		
40634	16"	9 / 11	P-7	1*mm* x 4.7*mm*	45 *gal*	27 *f/m*	52 *dB*			●				●	38" x 29" x 20"	198 *lbs*

All performance data has been established using #20 / #16 bond 8 ½" x 11" paper. Different paper qualities may yield different results.
